January 20, 2022

Dear University Laboratory School Parents and Students,

We are pleased to inform you that we will resume in-person learning on Monday, January 24, 2022 for students in grades K-12. We will be instituting our updated ULS COVID-19 health and safety guidance as well as changes to our daily program to ensure a safe school experience for all. Please take some time to read through the updated health and safety guidance beginning on pages 8 in the [2021-2022 ULS Student/Parent Handbook](#) on the Resources page of the school website. Here is a [direct LINK](#) to the ULS Health and Safety section for your convenience.

Below are highlights from the updated guidance as well as other pertinent information for parents and students.

Updated Highlights:

- Individuals who have tested positive for COVID-19, regardless of vaccination status are required to isolate at home for 5 days. See other requirements on page 8 of the handbook.
- Individuals who have COVID-19 symptoms (even mild symptoms), regardless of vaccination status are required to isolate at home for 5 days. See other requirements on page 8 of the handbook.
- Individuals identified as a close-contact who are *not* fully vaccinated are required to quarantine at home for 5 days. See other requirements on page 9 of the handbook.
- Individuals identified as a close-contact who *are* fully vaccinated and asymptomatic are not required to quarantine and can come to school/work, but will be required to test on day 5 and submit results to ULS health. See other requirements on page 9 of the handbook.
- Link to: [Newly Revised Daily Wellness Check and Return to School/Work Criteria Flyer](#)

The ULS health team is the lead contact for all health related issues involving ULS students. The team will contact parents regarding reported illnesses/injuries, reported COVID-19 situations, and return to school clearance protocols. Please send all health related inquiries and clearance requirements to health@universitylaboratoryschool.org. Communication received after 3:30pm Monday through Friday will be answered on the following school day.

As part of our ongoing efforts to keep our school community safe, we want to remind/inform parents and students of the following school guidelines:

- All ULS students are required to wear a well-fitted face mask. Masks must be the correct size and cover from nose to chin.
- All ULS students must practice social distancing of at least 6 ft when eating or drinking and 3 ft in other indoor and outdoor settings. When not eating or drinking, masks must be worn properly.
- Students will be required to submit lunch table seating daily. This is a new system we are implementing to support our efforts for a safe school environment. Directions on submitting this information will be emailed to students in grades 6-12.
- Vaccinations are an important part of helping to slow the spread of COVID-19 in the community. If your child is vaccinated or has recently received their booster, please submit a scan or picture of the CDC vaccine card to ULS health at health@universitylaboratoryschool.org.
- ULS accepts COVID-19 test results from a medical testing facility or state approved testing site. Home kit test results are not accepted for clearance to return to school.

On-campus Testing:

In the school memo dated [1.13.2022](#) parents were informed of our ULS on-campus testing site and registration process. All students must be registered in order to utilize the ULS on-campus testing site. An appointment is not required to test. For your convenience, here is the [LINK](#) to the registration form or you may use the QR code provided below. Registration on a mobile device is recommended.

ULS on-campus testing site schedule:

Mondays 6:45am to 7:40am
Thursdays 6:45am to 7:40am

Testing site location:

Multipurpose building (MPB)

Mahalo and stay safe,
